

Overview of the Bachelor of Pharmacy (B. Pharm.) program

Those who wish to work in the medical field may want to consider obtaining a Bachelor of Pharmacy (B. Pharm.) degree. Professionals in the pharmaceutical industry have direct access to the distribution of pharmaceuticals. Among the services offered by the pharmacy industry are drug development, quality control testing, and lab regulation. Pharmacy studies primarily focus on medication research, design, and development, as well as patient safety. The four core subjects of pharmaceuticals, pharmaceutical chemistry, pharmacology, and pharmacognosy were the basic building blocks of the B. Pharm. program.

Why Select a Bachelor of Pharmacy (B. Pharm.) Program?

Once a B. Pharm. degree is earned, a variety of job choices become available.

Research: More in-depth studies

Sectors: Production, Marketing, Quality Control, and Assurance

Proficiency in teaching at the Diploma level (D. Pharm.)

Government jobs as a food and drug inspector pharmacist Businesses can obtain licenses from the relevant State Pharmacy Council to create a pharmaceutical industry as well as to work as chemists and druggists.

Duration of the Program:

Eight semesters make up the four academic years required to earn a bachelor's degree in pharmacy.

Students with lateral entry finish six semesters in three academic years.

Periodically, the Pharmacy Council of India, New Delhi, will prescribe the program's curricula and syllabus

Additionally, there will be five hundred hours of hands-on instruction over a minimum of three months.

Medium of instruction and examinations:

Medium of instruction and examination shall be in English.
